

## Experience & Innovation

Milchprüfing Bayern e.V. is located in Bavaria (50 km north of Munich) and is running one of the largest independent milk testing laboratories for raw milk analysis worldwide.

Milchprüfing Bayern e.V. is considered as a pioneer in raw milk analysis and has over 80 years of experience with milk testing. As initiator of and partner in scientific projects, we have an **excellent reputation** in the dairy community – in Germany and internationally.

## Routine & Flexibility

Annually, our routine laboratory produces **more than 100 million validated analytical results** – from bulk milk samples for quality and payment purposes as well as from individual animal samples for the DHI-System.

Besides the routine activities, we always focus on our customers' needs and try to provide individual solutions.

# We are more than the sum of our parts!

### Our expertise in raw milk analysis not only adds up – it multiplies!

Milchprüfing Bayern e.V. is the holding company for the subsidiaries AiM GmbH (37%), QSE GmbH (100%) and milchZert GmbH (100%). The subsidiaries were established in order to **pursue certain specific topics** in the dairy sector.

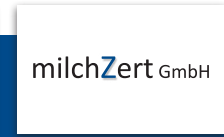

With its own experience and strength, Milchprüfing Bayern e.V. is **driving and enforcing the knowledge and expertise** of the subsidiaries.

Together we are involved in numerous **research projects** to find innovative and faster methods that are beneficial to our customers.

## Audits and inspections on dairy farms

The Bavarian raw milk monitoring program also ensures your milk quality.

Core competencies of milchZert GmbH are **audits and inspections in agricultural production**, particularly for dairy farms.

Here the focus is currently on QM-Milch – the national quality assurance system for dairy farms in Germany – and the monitoring of GMO-free programs.

As a neutral organisation, milchZert organises and coordinates the **Bavarian raw milk monitoring program**.

In this way, milchZert supports the farmer and the dairy industry to secure and strengthen their leading market position.

milchZert GmbH was founded in 2014 as an independent subsidiary of Milchprüfing Bayern e.V. The company is operating as a certification body in accordance with DIN EN ISO 17065.

- ✓ **Neutral**
